

Annual CPNI Certification
47 C.F.R. §64.2009(e)
EB Docket No. 06-36
September 17, 2008

Name of Company: Nextcarrier Prepaid, Inc.
Form 499 Filer ID: 825719
Name of Signatory: Boris Kudryavsky
Title of Signatory: Executive Vice President

I, Boris Kudryavsky, hereby certify that I am an officer of Nextcarrier Prepaid, Inc. ("NCP") and that I am authorized to make this certification on behalf of NCP. I have personal knowledge that NCP has established operating procedures that are adequate to ensure compliance with the Commission's CPNI rules, to the extent that such rules apply to any of the information obtained by NCP. *See* 47 C.F.R. §64.2001 *et seq.* Attached to this certification is an accompanying statement explaining NCP's procedures to ensure that it complies with the requirements set forth in § 64.2001 *et seq.* of the Commission's rules to the extent that such requirements apply to the information obtained by NCP.

NCP has not taken any actions against data brokers before state commissions, state or federal courts, or the FCC in the past year. NCP has not received any customer complaints in the past year concerning the unauthorized release of CPNI. NCP has no information, other than information that has been publicly reported, regarding the processes that pretexters are using to attempt to access CPNI.

Nextcarrier Prepaid, Inc.
Statement of CPNI Procedures and Compliance

Nextcarrier Prepaid, Inc. ("NCP") provides exclusively prepaid calling card services. Consequently, NCP does not have a "subscriber" relationship with its customers and does not send "bills" to its customers. Because it is exclusively a prepaid card provider, NCP does not obtain any information that would reveal the identity of an end user customer of its prepaid calling cards or the nature of the services used by any identifiable end user customer. For example, NCP does not obtain the customer's billing name, address or telephone number, or any other information that relates to the quantity, technical configuration, type, or location of a specific end user customer's service. In short, NCP does not obtain information that would enable it to determine the identity of the customer that uses its prepaid cards or to market other services to that customer.

NCP does obtain certain call detail information concerning the calls made using its prepaid cards, based on the PIN number associated with each card. However, the PIN number is anonymous and is not associated with any identifiable individual or customer, billing telephone number or billing location. Moreover, the call detail information obtained by NCP is not made available to customers or third parties over the telephone, online, or in retail stores. However, such information may be disclosed in response to a proper subpoena, court order or other judicial process.

NCP safeguards from improper use or disclosure by employees the call detail information that NCP obtains in providing its prepaid calling card services. Access to call detail information is limited to certain employees, and those employees are trained to protect call detail information from improper use or disclosure and informed that failure to protect that information will result in appropriate disciplinary action. In addition, NCP has programs and procedures in place to discover and protect against attempts by third parties to gain unauthorized access to NCP's computers and call detail records.

NCP did not have any breach of its call detail records during 2007. Because NCP does not have any presubscribed customers, and does not know the identity of end users who purchase its prepaid cards, it cannot notify those customers directly if a breach occurs. However, NCP has processes and procedures in place to maintain records of any security breaches and to notify law enforcement of such breaches.
